This Petrol Pump 2 is great for any tricycle track or traffic play theme. It will appeal to role play around the themes of driving and traffic, which is always a great imaginative support for the child. This will add attraction and play time. The Petrol Pump is made in rope, and the handle are quite elaborate in combination with the red, green and yellow buttons for choosing

the right octane strength. All in all the variety of materials stimulates the fine motor skills and tactile sense, especially for the youngest players. The dramatic play around traffic and gas stations stimulates the child's cognitive development in evoking storytelling and imagination. This supports the child's thinking skills along with the ability to negotiate and

empathize, both important skills in making great play companions.
