

Fire Engine

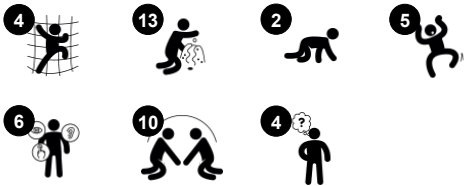

M535

Item no. M53570-3418P

General Product Information

Dimensions LxWxH	172x275x190 cm
Age group	6m+
Play capacity (users)	8
Colour options	 

When it comes to deciding what playground equipment to purchase, fire engines for toddlers are a great option. Fire engines are a classic children playground choice and at KOMPAN we have an excellent fire engine that is perfect for any school playground equipment. Why Buy KOMPAN's Fire Engines? At KOMPAN, our fire engines are designed with school children in mind. Every feature is designed to allow children to have the maximum amount of fun possible. This spacious fire engine can hold up to 8 - 10

children so it can allow children to practice and develop their social, physical, creative and cognitive skills. With two steering wheels, you can have two firefighters drive this fire engine at the same time. The shout of fire! fire!" reaches the crew of the Fire Engine, and within minutes help is on its way. The Fire Engine is immediately manned with brave fire fighters, and the vehicle speeds along towards the fire with blue light flashing and sirens howling. There is room in the cab, on the running-board and in the Fire Engine for between 8 to 10

brave fire fighters. Additional features of movable knobs, handles, etc. offer endless hours of fun and excitement on this unforgettable play item from KOMPAN. Made from eco-friendly material this carefully constructed fire engine is not only recyclable after use, but it also has a core that is manufactured from 100% recycled post-consumer material derived from food packaging waste. If you would like to find out more about our children's fir"

Theme

Cognitive: suggests a theme and supports dramatic play, which stimulates language and communication skills.

Megaphone

Social-Emotional: inspires communication and turn-taking skills. **Cognitive:** distortion of sound evokes curiosity and stimulates an understanding of cause and effect.

Play sphere

Social-Emotional: can be played from both sides, encouraging cooperation. **Cognitive:** cause and effect understanding. **Creative:** leave a mark and place the spheres at different positions.

Crawl-through hole

Physical: the hole allows for climbing and crawling through, developing cross coordination, proprioception and spatial awareness. **Social-Emotional:** cooperation and turn-taking when passing one another. **Cognitive:** understanding space, shape and measures when seeing if the body can fit through the hole.

Turning wheel

Social-Emotional: develops turn-taking, communication and cooperation. **Cognitive:** the manipulative item stimulates cause and effect understanding, logical thinking and communication. **Creative:** working with moveable play items that can leave a mark supports the child's creativity.

Gear shift

Social-Emotional: cooperation, turn-taking, sharing. **Cognitive:** suggests a theme and supports dramatic play, which stimulates languages skills.

Truck bed

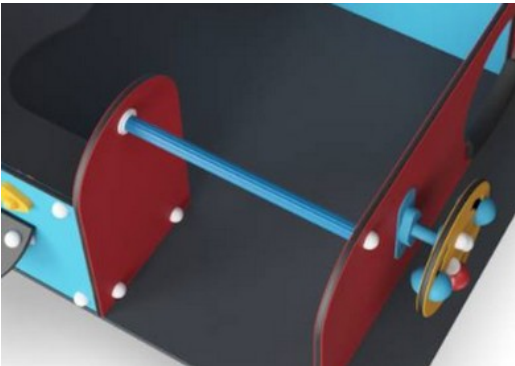

Social-Emotional: the truck bed allows for more children to be together and share. Important life skills like consideration and turn-taking are built.

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of material produced from +95% recycled post consumer material from food packing waste.

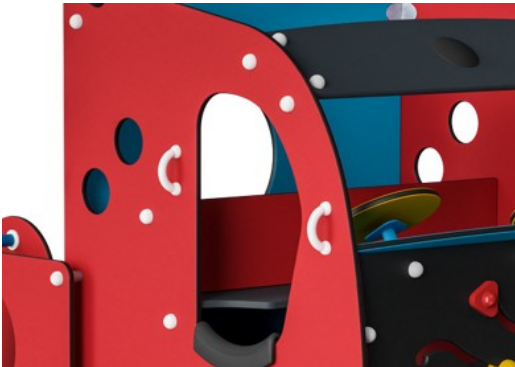

Foot support is made of HPL with a thickness of 17,8mm with a very high wearing strength and a unique KOMPAN nonskid surface texture.

Play activities like the Megaphone are made of injection moulded high quality nylon (PA6). PA6 has good wearing and impact strength and is UV stabilised.

Exhaust pipe is made of polypropylene PP with excellent impact strength and usable within a large temperature span.

Handholds are made of injection moulded high quality nylon (PA6). PA6 has good wearing and impact strength.

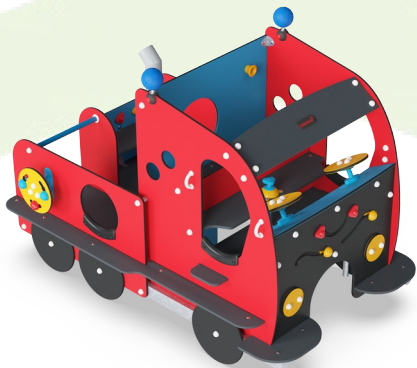

KOMPAN GreenLine versions are designed with ultimate environmentally friendly materials with lowest possible CO2e emission factor such as EcoCore™ panels of +95% post consumer recycled ocean waste.

Item no. M53570-3418P	
Installation Information	
Max. fall height	91 cm
Safety surfacing area	23.7 m²
Total installation time	15.9
Excavation volume	0.60 m³
Concrete volume	0.00 m³
Footing depth (standard)	63 cm
Shipment weight	505 kg
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
EcoCore HDPE	Lifetime
Hot dip galvanised steel	Lifetime
HPL decks	15 years
PUR components	10 years
Spare parts guaranteed	10 years

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
