

# BLOQX 6

BLX4106

Item no. BLX410603-3717

### General Product Information

Dimensions LxWxH	19'6"x13'4"x9'10"
Age group	5 - 15
Play capacity (users)	32
Color options	  

BLOQX™ 6 is the formula for hours of thrilling climbing, play and meeting. The combination of iconic, geometrically shaped blocks appeals intensely to older children. With its fine climbing grips, it invites scalable climbing challenges and games to grow with for heaps of children. The design allows room for socializing and exchange with ridges and valleys. The

possibility of climbing, crawling and balancing at your own speed, height and length makes the BLOQX™ a successful gathering place for children at different climbing levels, again and again. The varied grip and panel positions train muscle strength and motor skills: cross-body coordination and spatial awareness, that positively affect e.g. concentration. Social-

emotional skills such as helping out are constantly in use. Thinking skills are trained, figuring out routes.

BLX4106

## Climbing grips grid

**Cognitive:** logical thinking when figuring out routes and memorizing position of grips you can't see when climbing.

## Multiple climbing blocks

**Physical:** develop sense of balance, proprioception and spatial awareness. Heavy duty training of arm, leg and core muscles when climbing longer. More points for strengthening bone density when jumping down. **Social-Emotional:** cooperation, consideration, turn-taking, risk-taking, self-confidence when self-regulating and helping others. **Cognitive:** logical thinking when figuring out longer routes.

## Inclined panels

**Physical:** sense of balance when seated for breaks, and proprioception. Bone density when jumping down. Bone density is built up in youth to last the rest of your life. **Social-Emotional:** meeting points from where to help other children. Turn-taking and helping out are common activities on the BLOQX™.

## Climbing grips

**Physical:** dexterity and cross-body coordination, sense of space, all important in navigating the body in space. Pushing, pulling and using fingers, arms, legs and core, strengthen the muscles.

## Meeting point

**Physical:** sense of balance when seated for breaks on an inclined surface. **Social-Emotional:** socializing, turn-taking, consideration of others.

BLX4106

High pressure moulded PP climbing panels with excellent impact strength and usable within a large temperature span. The panel are made from 75% post-consumer recycled materials in bright colors. Teal color is made from 75% ocean waste. The outside surface has an integrated pattern and surface texture that is dirt repellent.

Die-cast corner brackets of high quality lead free aluminium. The corner brackets have nicely rounded edges and countersunk stainless steel screws. For sunny environments the corner brackets can be supplied with optional powder coating which reduced the heat absorption of the brackets.

Climbing Grips are KOMPAN customized design, based on professionally designed climbing grips for optimal play value. The base material is polyester. There are two colors of climbing grips (green & black) and three on each panel. They are rotation secured by a steel pin.

Item no. BLX410603-3717	
Installation Information	
Max. fall height	9'10"
Safety surfacing area	579ft²
Total installation time	41.1
Excavation volume	3.19yd³
Concrete volume	0.84yd³
Footing depth (standard)	2'11"
Shipment weight	1745lbs
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
Climbing grips	10 Years
Climbing panels (PP)	10 Years
Corner brackets	10 Years
Hot dip galvanized steel	Lifetime
Spare Parts Availability	10 Years

The cubes are supported by a unique designed footing system that secures the correct positioning of the cubes.

To ensure maximum safety in all weather conditions a non-skid safety plate is located when climbing down from the elevated cube. Further, a number of the top corner brackets are covered with soft PUR.

Greenline Bloqx products are built of molded PP panels that consist of 75% recycled post-consumer ocean waste and 25% virgin material. The panels are designed with a unique pattern that provides a non-skid surface texture. GreenLine ensures the lowest possible CO2e emission factor.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

## Verification of CO<sub>2</sub> calculation of: Challengers & Climbers

Data version no. 20213-10-05

The CO<sub>2</sub> calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Challenger & Climbers" represented by item no.: GXY941032-3717.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
