

Horse Seesaw

M182

Item no. M18213-01P

General Product Information

Dimensions LxWxH	1'2"x10'2"x3'1"
Age group	2 - 12
Play capacity (users)	2
Color options	

The Horse seesaw with its friendly horses and vibrant colors invites children to try out the rocking experience. Due to the supportive ergonomics, children will play intensely for a long time and come back again and again. The springs make it possible for users of different ages and sizes to rock together. Adults can participate, too. The rounded seats and

footholds and handholds allow children to give it a good go. The handgrips support a firm hold for a span of sizes. The varied colors invite games. Rocking on the Horse is a different seesaw experience, as the springs allows for users of different numbers, weights and abilities to play and cooperate. The Horse is great for cooperative play: the child needs to

consider the rhythm of the other players' movements. This is good training of cooperation and consideration. All children including those with autism get a chance for social play in a secure framework.

Horse Seesaw

M182

Theme

Cognitive: suggests a theme and supports dramatic play, which stimulates language and communication skills.

Rocking together

Social-Emotional: the possibility of rocking together develops cooperation skills and consideration of others when rocking.

Foot support

Physical: a good footrest supports intense rocking. Rocking stimulates the senses of balance and space that are fundamental in managing the world securely. Intense rocking also develops coordination and muscle strength.

Rocking spring

Physical: response to movement increases spatial awareness and sense of balance. These are fundamental motor skills that help the child's ability to sit still on a chair which takes a good sense of balance. **Cognitive:** trains the understanding of cause and effect: when I move my body, the spring responds with movement.

Handhold

Physical: the vertical handgrips ensure a firm grip at different heights, necessary for rocking intensely. This trains hand and arm muscles.

Horse Seesaw

M182

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material.

KOMPAN Springs are made of high quality spring steel according to EN10270. The springs are cleaned by phosphating before they are painted with an epoxy primer and a polyester powder coating as top finish. The springs are fixed by unique anti pinch fittings for maximum safety and long lifetime.

The springs are fixed by unique anti pinch fittings for maximum safety and long lifetime.

Item no. M18213-01P	
Installation Information	
Max. fall height	3'3"
Safety surfacing area	254ft²
Total installation time	4.3
Excavation volume	0.56yd³
Concrete volume	0yd³
Footing depth (standard)	1'5"
Shipment weight	327lbs
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
EcoCore HDPE	Lifetime
Hot dip galvanized steel	Lifetime
Spare Parts Availability	10 Years
Springs	5 Years

Handholds and footrests are made of injection moulded high quality nylon (PA6). PA6 has good wearing and impact strength.

The steel support posts are hot dip galvanized inside and outside with lead free zinc. The galvanization has excellent corrosion resistance in outside environments and requires low maintenance.

KOMPAN GreenLine versions are designed with the most environmentally friendly materials with the lowest possible CO2e emission factor such as EcoCore™ panels of 100% post-consumer recycled ocean waste.

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
M18213-01P	255.10	2.41	50.60

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Freestanding play equipment

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: GXY916012-3417.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
