

# Explorer Ship, Large

NRO546

Just try to keep the kids away from this huge Explorer Ship built right on the land! There are a variety of levels and play activities, where the children can climb, crawl, bounce and slide until they are worn out. There are nets and climbing walls to build strength and coordination, and also quiet spaces under the deck to chill out. The ship is made of Robinia

timber, which provides an organic structure, that can either blend into or stand out from your surrounds. Children can touch and feel the timber while acting out their imaginations and social play, observing how nature inspiration interacts with the built environment. So jump aboard the explorer ship, fire the cannons and sail the seas!

## Cannon

**Cognitive:** the cannon set a tangible theme and thus spur dramatic play. Dramatic play supports language and communication skills.

## Binoculars

**Cognitive:** the binoculars promote dramatic play, a great trainer of language and communication skills. **Creative:** the binoculars can be moved around. Looking through them gives a new perspective on the world.

## Slide

**Physical:** develops spatial awareness, sense of balance and trains core muscles when sitting upright going down. **Social-Emotional:** empathy stimulated by turn-taking.

## Coconut rope bridge

**Physical:** the bridge sways gently, training the sense of balance and space when the child balances across. These motor skills in are great for learning how to navigate space. **Social-Emotional:** children swaying together on the rope experience their own and others' movements. This spurs cooperation and consideration, e.g. when passing others on the rope.

## Rock climber

**Physical:** supports cross coordination and leg, arm and hand strength. The hand-holds on top ease entry into platform. **Social-Emotional:** the inclination makes climbing feel secure, especially for younger children.

## Bow net

**Physical:** the interconnected bow net and ladders make a challenging climb. This supports cross coordination and major muscles. **Social-Emotional:** the climbers feel the movements of their peers in the net. This evokes cooperation, turn-taking risk-taking and empathy.

## Sand crane

**Physical:** hoisting the basket up and down trains arm muscles and dexterity. **Social-Emotional:** cooperating with others e.g. receiving the bucket trains cooperation skills. **Cognitive:** understanding the mechanism of the chains hoisting buckets up and down supports logical thinking skills. **Creative:** working with moveable play items that can leave a mark supports the child's creativity.

All organic Robinia products by KOMPAN are made of Robinia wood which is sourced from sustainable plantation farms. On request it can be supplied as FSC® Certified (FSC® C004450).

The paint used for coloured components is water based, which is environmentally friendly and has excellent UV resistance. The paint complies with Australian Standards.

The Robinia products come in a number of standard colour options. The wood can also be supplied as untreated or with brown painted with a pigment that maintains the wood colour.

Nets and ropes are made of UV-stabilised PA with inner steel cable reinforcement. The rope is induction treated to create a strong connection between steel and rope, which leads to durable weather resistance.

The hardware is made of stainless steel or galvanised steel to ensure durable connections that has high corrosion resistance.
