The Water Tap Podium eases access to tapping water or reaching basins for the youngest or smallest users. Additionally, the Water Tap Podium makes for a fine rest point or a meeting point for children playing with the sand and water items. Adding resting points and podiums to To playgrounds often add the glue needed to cater for meeting and

exchanging. It also facilitates usability for the youngest. Additionally, it adds a meeting point for care givers or parents who can casually or actively follow the play of the children seated on the Water Tap Podium.

## Lower platform

**Physical:** climbing up, jumping down develops muscle and motor skills such as coordination, which are important in navigating your body securely through the world. **Social-Emotional:** children can sit and talk together. The step helps children who need extra height to maneuver the tap and water channel.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
