NRO603

The Robinia Dress-Up wall with Mirror is a great play creator that invites numerous dramatic play scenarios: shop, make-up parlour, kitchen. It hugely attracts children in play for a long time, again and again. The table with flaps covering holes and the shelf under the table make for endless play and experimenting, shifting materials through holes.

This stimulates the child's understanding of object permanence: that things can disappear out of sight but still exist. This is fundamental for understanding that people exist even if you don't see them and thus is an important cognitive skill. The window, clock and bell invite hours of dramatic play. This is known to stimulate language development. The mirror

builds up the child's understanding of individuality and makes for hours of fun. The play panel as such encourage social interaction and cooperation in dramatic and explorative play.

## Mirror

**Cognitive:** understanding of individuality and self expression. Stimulates dramatic play and thus language and communication development.

## Shelf

**Cognitive:** suggests a theme and supports dramatic play, which stimulates languages and communication skills. Gives the option of hiding or storing items as part of dramatic play or explorative play.

## Desk flaps w. holes

**Social-Emotional:** cooperation, turn-taking and parallel play inspired by the two flaps.

**Cognitive:** shifting things through holes to shelf supports logical thinking and the understanding of object permanence.

## Window

**Social-Emotional:** invites interaction between sides and cooperative play.

## Clock and bell panel

**Cognitive:** understanding cause and effect when ringing bell, learning about numeracy and time in a tangible way. **Creative:** leaving a mark in creating new positions on clock or with sound creating a rhythm when ringing or knocking the bell.
