

Stilts

NRO806

Item no. NRO806-0601	
General Product Information	
Dimensions LxWxH	4'2"x8'1"x3'7"
Age group	5 - 12
Play capacity (users)	3
Color options	 

The Stilts are a playground classic that appeal to children repeatedly. The Stilts have a basic play message: balance through without touching the ground. The Stilts invite jumping or balancing from one to the next. They can also be used as individual seats and cater to meeting in groups. The Stilts support children who are developing their skills, thanks to their

foot-steps and inclination: children can always lean to the side to regain balance. When balancing from stilt to stilt, children train their proprioception and sense of balance. Balance and proprioception are fundamental in confidently managing the body in space. Crossing the Stilts with friends trains turn-taking and negotiation. These are important

social-emotional skills that are basic to the ability to form friendships and relate to peers.

Stilts

NRO806

Stilts

Physical: balancing that supports the vestibular system as well as cross coordination. **Social-Emotional:** cooperation and turn-taking.

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

The Robinia wood can be supplied as untreated raw wood or painted with a brown colored transparent pigment that maintains the golden wood color of the wood.

Item no. NRO806-0601	
Installation Information	
Max. fall height	3'7"
Safety surfacing area	286ft²
Total installation time	3.4
Excavation volume	0.61yd³
Concrete volume	0.21yd³
Footing depth (standard)	2'1"
Shipment weight	504lbs
Anchoring options	In-ground ✓
Warranty Information	
Robinia Wood	10 Years
Spare Parts Availability	10 Years

Elevated activities 0	Accessible elevated activities	Accessible ground level activities	Accessible ground level play types
Present	0	1	1
Required	0	1	1

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Validation of CO₂ calculation method
BUREAU VERITAS
HSE Denmark A/S

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
