

BLOQX 1

BLX4101

Item no. BLX410102-3717	
General Product Information	
Dimensions LxWxH	183x215x205 cm
Age group	8+
Play capacity (users)	8
Colour options	  

The iconic, geometric shaped BLOQX™ 1 encourages climbing and meeting, particularly for teenagers and older children. With its sculptural look and professional climbing grips, BLOQX™ invites scalable challenging climbing and games. The design allows room for socialising, and the possibility of climbing, crawling, and balancing at your own speed

makes the BLOQX™ a safe option for children at different climbing levels. Due to its versatility, children will enjoy BLOQX™ and return for more. The varied grip and panel positions help to develop muscle strength and motor skills: cross-body coordination, proprioception and spatial awareness, having a positive impact on concentration skills and social-emotional skills

such as consideration, which is used when children climb and meet together on the BLOQX™.

BLOQX 1

BLX4101

Inclined panels

Physical: sense of balance when seated for breaks, and proprioception. Bone density when jumping down. **Social-Emotional:** meeting points from where to help other children. Turn-taking and helping out are common activities on the BLOQX™.

Climbing grips grid

Cognitive: logical thinking when figuring out routes and memorizing position of grips you can't see when climbing.

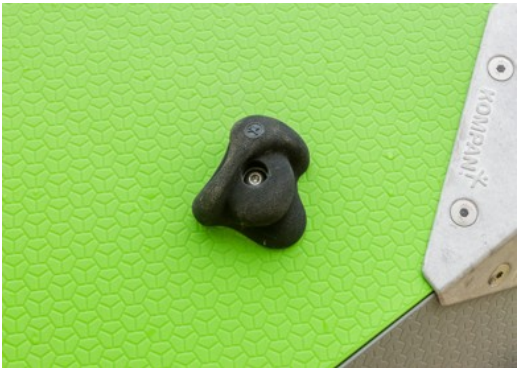

Climbing grips

Physical: dexterity and cross-body coordination, sense of space. Pushing, pulling and using fingers, arms, legs and core, strengthen the muscles.

BLOQX 1

BLX4101

High pressure moulded PP climbing panels with excellent impact strength and usable within a large temperature span. The panel are made from 75% post-consumer recycled materials in bright colors. Teal color is made from 75% ocean waste. The outside surface has an integrated pattern and surface texture that is dirt repellent.

Die-cast corner brackets of high quality lead free aluminium. The corner brackets have nicely rounded edges and countersunk stainless steel screws. For hotter climates, the corner brackets can be supplied with optional powder coating which reduced the heat absorption of the brackets.

Climbing Grips are a signature design for KOMPAN. The design has been based on professionally designed climbing grips to maximise optimal play value. The base material is polyester. Each panel consists of three climbing grips which are fixed with secured with steel pins. Climbing grips come in two different colours; green or black.

Item no. BLX410102-3717	
Installation Information	
Max. fall height	205 cm
Safety surfacing area	19.8 m²
Total installation time	9.1
Excavation volume	0.46 m³
Concrete volume	0.20 m³
Footing depth (standard)	90 cm
Shipment weight	252 kg
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
Climbing Grips	10 years
Climbing Panels (PP)	10 years
Corner Brackets	10 years
Galvanised Steel	Lifetime
Spare Parts Guarantee	10 years

The steel surfaces are hot-dip galvanised inside and outside with lead-free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

The cubes are supported by a unique designed footing system that secures the correct positioning of the cubes.

Greenline Bloqx products are built of molded PP panels which consist of 75% recycled post consumer ocean waste and 25% virgin material. The panels are designed with a unique pattern that provides a non-skid surface texture. GreenLine ensures the lowest possible CO2e emission factor.

Sustainability Data

BLX4101

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
BLX410102-3717	291.60	1.70	63.40

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Challengers & Climbers

Data version no. 20213-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Challenger & Climbers" represented by item no.: GXY941032-3717.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025

Verified by:

Julie Marie Vejsgaard Larsen, LCA & EPD Consultant

Verification based on report: Validation of CO₂ calculation of 9 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Julie M. V. Larsen.
