

Little Elephant

M189

Item no. M18901-01P

General Product Information

Dimensions LxWxH	1'4"x2'7"x2'10"
Age group	6m - 4
Play capacity (users)	1
Color options	

Wow! The whimsical look of the Little Elephant is a play attractor. And it rocks! Rocking is a thrilling activity that attracts young children immensely. Rocking while standing is not only fun but helps to build physical and cognitive skills. The rocking movements of the Little Elephant respond to the child's own forward and backward movements. This takes

coordination and develops spatial awareness and a sense of balance. These are fundamental motor skills that help the child move confidently as well as sit still on a chair. The movement develops and supports trunk stability. The responsive movements help children to be aware of cause and effect: when they move their body, it has an impact. This

builds a foundation for understanding logical thinking. The red sphere on the Elephant's ear adds to this understanding when the child moves it up and down the groove.

Little Elephant

M189

Theme

Cognitive: suggests a theme and supports dramatic play, which stimulates language and communication skills.

Rocking movement

Physical: response to movement increases spatial awareness and sense of balance. These are fundamental motor skills that help the child's ability to sit still on a chair which takes a good sense of balance. **Cognitive:** trains the understanding of cause and effect: when I move my body, the spring responds with movement.

Play sphere

Social-Emotional: can be played from both sides, encouraging cooperation. **Cognitive:** cause and effect understanding. **Creative:** leave a mark and place the spheres at different positions.

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material.

Seat is made of HPL with a thickness of 17.8mm with a very high wearing strength and a unique KOMPAN nonskid surface texture.

The rocking movement over axis is made by heavy duty scaled ROSTA torsion spring element. The ROSTA element works without any noise and requires low maintenance.

The steel surfaces are hot-dip galvanized inside and outside with lead-free zinc. The galvanization has excellent corrosion resistance in outside environments and requires minimal maintenance.

Item no. M18901-01P	
Installation Information	
Max. fall height	1'3"
Safety surfacing area	154ft ²
Total installation time	2.6
Excavation volume	0.16yd ³
Concrete volume	0yd ³
Footing depth (standard)	1'5"
Shipment weight	62lbs
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
EcoCore HDPE	Lifetime
Hot dip galvanized steel	Lifetime
Spare Parts Availability	10 Years
Springs	5 Years

Elevated activities 0	Accessible elevated activities	Accessible ground level activities	Accessible ground level play types

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
M18901-01P	62.50	2.40	38.80

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Themed play systems

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Themed play systems" represented by item no.: MSC641100-3717P.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025

Verified by:

Julie Marie Vejsgaard Larsen, LCA & EPD Consultant

Verification based on report: Validation of CO₂ calculation of 9 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Julie M. V. Larsen.
