

Scooter

KPL101

Item no. KPL101-0411

General Product Information

Dimensions LxWxH	35x88x72 cm
Age group	2+
Play capacity (users)	1
Colour options	

The Scooter is a hugely inviting springer that attracts and supports children's relentless play time and time again. The rocking sensation provides a fantastic movement response. Movement response is one of the greatest play sensations there are. Apart from the fun, this adds a feeling of control to the child's play. The responsive movement also trains the

understanding of cause and effect in young children: those actions have an effect on the world around us. This stimulates logical thinking. Rocking the Scooter trains the child's sense of balance and space as well as uses leg and arm muscles when holding tight and pushing your feet hard into the foot support. All of these basic motor and muscle skills help

train the child's brain-body cognition, supporting important life skills such as being able to sit still on a chair or navigate traffic securely.

Scooter

KPL101

Foot support

Physical: the footrest supports intensive rocking, simulating the senses of balance and space and supports coordination and muscle strength.

Rocking spring

Physical: response to movements adds to spatial awareness and sense of balance which are fundamental motor skills.

Cognitive: trains the understanding of cause and effect: when I move my body, the spring responds with movement.

Theme

Cognitive: suggests a theme and supports dramatic play, which stimulates language and communication skills.

Handhold

Physical: opens more hold positions and ensures good grip, necessary for rocking intensely which trains hand and arm muscles.

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco-friendly material, which is not only recyclable after use but also consists of a core produced from 100% recycled material.

KOMPAN's springs are manufactured from high-quality spring steel. The springs are cleaned by phosphating before being painted with epoxy primer and polyester powder coating. The springs are fixed by unique anti-pinch fittings for maximum safety and longevity.

The springs are fixed by unique anti-pinch fittings for maximum safety and longevity.

Handholds and footrests are manufactured from injection moulded high-quality nylon (PA6) which is a durable material.

The seat is made of a moulded PP insert which has a soft outer layer of TPE rubber. TPE rubber has good shock absorption and is a durable solution.

Item no. KPL101-0411	
Installation Information	
Max. fall height	60 cm
Safety surfacing area	7.5 m²
Total installation time	2.3
Excavation volume	0.15 m³
Concrete volume	0.00 m³
Footing depth (standard)	45 cm
Shipment weight	28 kg
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
EcoCore HDPE	Lifetime
Handle	10 years
PE/PP Components	5 years
Spare Parts Guarantee	10 years
Springs	5 years

Sustainability Data

KPL101

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
KPL101-0411	62.10	2.52	44.50

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Freestanding play equipment

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: GXY916012-3417.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
Verified by:

Julie Marie Vejsgaard Larsen, LCA & EPD Consultant

Verification based on report: Validation of CO₂ calculation of 9 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Julie M. V. Larsen.
