

Turbo Challenge

NRO884

Turbo challenge can carry its name with great pride: here is the play attraction that will make children come back again and again. With its responsive turning character, there is no end to the fun on the Turbo Challenge. The side bars offer a nice entry point and a point to take a break and watch your friends. But the Turbo Challenge is the main thrill. Children cooperate

and take turns while spinning, hanging from legs or arms. This trains the upper body muscles as well as proprioception and spatial awareness, important for confidently navigating your body in the world. The upper body muscles and cores of children are constantly at work when playing in the Turbo Challenge, but cooperation and turn-taking skills are also used

when children hang together from the rings.

Item no. NRO884-1021	
General Product Information	
Dimensions LxWxH	8'9"x4'11"x8'8"
Age group	5 - 12
Play capacity (users)	4
Color options

Turbo challenge

Physical: upper body muscles are trained when hanging. Agility, proprioception and coordination are trained when spinning from one ring to the next. Spatial awareness and sense of balance are trained by the rotating motion. **Social-Emotional:** the sections of each of the spinners allow for more children hanging in arms or knees, cooperating. This trains empathy and turn-taking skills.

Side ladder

Physical: cross coordination and eye-hand coordination are supported when climbing the side ladder. The climbing also develops leg and arm muscles. **Social-Emotional:** social interaction when hanging out together, learning about turn taking and cooperation.

Turbo Challenge

NRO884

Colored steel components have a base of hot-dip galvanization and a powder-coated top finish. This provides ultimate corrosion resistance in all climates around the world.

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

The paint used for coloured components is water based environmentally friendly with excellent UV resistance. The paint is in compliance with EN 71 Part 3.

The Robinia wood can be supplied as untreated raw wood, painted with a brown colored transparent pigment that maintains the golden wood color or in a colored version where selected components are painted in different colors.

Item no. NRO884-1021	
Installation Information	
Max. fall height	6'7"
Safety surfacing area	323ft²
Total installation time	8.9
Excavation volume	0.65yd³
Concrete volume	0.46yd³
Footing depth (standard)	3'3"
Shipment weight	911lbs
Anchoring options	In-ground ✓
Warranty Information	
Robinia Wood	10 Years
Spare Parts Availability	10 Years
Stainless steel components	Lifetime
Stainless steel components	Lifetime

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
NRO884-1021	131.00	0.38	4.20

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
