

Little Turtle's Town

NRO4001

Item no. NRO4001-1021	
General Product Information	
Dimensions LxWxH	671x529x281 cm
Age group	1+
Play capacity (users)	26
Colour options	 

The Little Turtle's Town is an entire, intriguing world of toddler play that will attract and retain all toddlers in fun play again and again. The richness of play activities makes it fun to investigate and supports multiple areas of child development. KOMPAN Play Institute research has documented, that the many manipulative details increase play retention. Additionally, it supports dramatic play, which again supports language and communication skills for toddlers. In the Little Turtle's Town toddlers can

loop a variety of manipulative, themed play panels, using their gross and fine motor skills and muscles while doing so. The house themed unit and the manipulative details additionally support the emerging dramatic play in the toddlers. The scale of the Little Turtle's Town is perfectly shaped for toddlers. The bridge links offer balancing, bouncing, and crawling experiences which all train the concept of being higher than and lower than, above, and below. This aids spatial awareness

which again supports mathematical understanding. The lovely slide is looped greatly with the transfer platform, allowing for easy assistance for less mobile users. The transparency of the Little Turtle's Town works wonders for the overall communication and cooperation with all friends across and from inside to outside, supporting turn-taking and cooperation skills. Thanks to openness in design, everyone can participate in play in Little Turtle Town.

Little Turtle's Town

NRO4001

Slide

Physical: develops spatial awareness, sense of balance and trains core muscles when sitting upright going down. **Social-Emotional:** empathy stimulated by turn-taking. **Cognitive:** young children develop their understanding of space, speed and distances when sliding down.

Gearshift panel

Social-Emotional: cooperation, turn-taking, sharing. **Cognitive:** supports dramatic play, which stimulates languages and communication skills. **Creative:** changing the position of the gear, leaving your mark.

Window with curtains

Physical: tactile stimulation supports sensory skills, when children explore the characteristics of the materials. **Social-Emotional:** social interaction between inside and outside, supporting turn-taking and cooperation. **Cognitive:** understanding of object permanence playing peek-a-boo. Dramatic play support, encouraging language skills. **Creative:** leaving a mark, deciding how to place curtains.

Tunnel

Physical: the children crawl through the tunnel, developing motor skills such as cross-body coordination and proprioception. **Social-Emotional:** turn-taking when passing each other.

Balance beam

Physical: trains the sense of balance, fundamental for all other motor skills that makes it possible to navigate the world confidently and securely. **Social-Emotional:** turn-taking skills and negotiation when crossing each other on the beam. Room for a seated rest and exchange.

Gear wheels

Social-Emotional: cooperation skills and turn-taking are supported when turning the gearing wheel. **Cognitive:** cause and effect understanding, and logical thinking are supported.

Crawl-through hole

Physical: the hole allows for climbing and crawling through, developing cross coordination, proprioception and spatial awareness. **Social-Emotional:** cooperation and turn-taking when passing one another.

Little Turtle's Town

NRO4001

All organic Robinia products by KOMPAN are made of Robinia wood which is sourced from sustainable plantation farms. On request it can be supplied as FSC® Certified (FSC® C004450).

The product/activities are preassembled from the factory to ensure all safety requirements are considered.

The paint used for coloured components is water-based, which is environmentally friendly and has excellent UV resistance. The paint is compliant with Australian Standards.

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco-friendly material, which is not only recyclable after use but also consists of a core produced from 100% recycled material.

There are multiple footing options for all products: Surface anchoring with steel footings and expansion bolts, or wood in-ground or steel in-ground footings.

Robinia products are available in three different wood treatment options; untreated Robinia wood or brown painted with a pigment that maintains the wood colour and coloured version with paint of selected components.

Item no. NRO4001-1021	
Installation Information	
Max. fall height	100 cm
Safety surfacing area	56.3 m²
Total installation time	45.5
Excavation volume	3.33 m³
Concrete volume	0.00 m³
Footing depth (standard)	100 cm
Shipment weight	2,187 kg
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
EcoCore HDPE	Lifetime
Galvanised Steel	Lifetime
Robinia Wood	15 years
Spare Parts Guarantee	10 years
Stainless Steel Components	Lifetime

Sustainability Data

NRO4001

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
NRO4001-1021	566.80	0.33	5.00

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
