The Balance beam on springs is a playground classic with extra fun! It trains balance and coordination, and excitement as the beam moves as soon as it is stepped on. Balancing on the beam with friends also trains cooperation, negotiating and turn-taking. It is made of natural Robinia timber, which provides an organic structure that can either blend into

or stand out from your surrounds. Children can touch and feel the timber while playing, observing how nature inspiration interacts with the built environment

All organic Robinia products by KOMPAN are made of Robinia wood which is sourced from sustainable plantation farms. On request it can be supplied as FSC® Certified (FSC® C004450).

KOMPAN's springs are manufactured from high-quality spring steel. The springs are cleaned by phosphating before being painted with epoxy primer and polyester powder coating. The springs are fixed by unique anti-pinch fittings for maximum safety and longevity.

The Robinia wood can be supplied as untreated raw wood or painted with a brown coloured transparent pigment that maintains the golden wood colour of the wood.
