A great place to chill! The Meeting point with bench adds that important option to the playground. The design appeals to older children and is based on research insights: when creating a meeting point, for instance for teenagers, it is important to make it relatively transparent, while keeping a feeling of a safe haven too. This is why the Meeting Point with

Bench features openings in its back support: to make sure that people seated can see what or who is approaching. The side panels ensure a feeling of security and comfort, to make people want to stay. The benches on the side of the meeting point adds to the ability of being seated both ways, having a view of the entire playground while meeting with friends or

watching your children play. The Meeting Point with Bench has so much more to it than meets the eye.

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco-friendly material, which is not only recyclable after use but also consists of a core produced from 100% recycled material.

The steps are made of high-pressure laminate HPL with a thickness 17.8mm and non-skid surface texture. KOMPAN's HPL is high wearing to ensure longevity within the Australian climate.

The steel surfaces are hot-dip galvanised inside and outside with lead-free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

Steel posts are galvanised inside and outside with powder-coated top finish. This provides ultimate corrosion resistance in all climates around the world.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
