

Greenhouse & Florist

MSV604

Wow! Children are immensely attracted to the activity of the Greenhouse & Florist play area. In a small space, children will play intensely, again and again. Loaded with play, the play unit benefits the children's physical, social-emotional, cognitive, and creative development. Numerous play features encourage social play as they unite children

with tangible, cross-panel play activities: the tube, sand scoop, and string with knob. The Greenhouse & Florist has tangible themes: switch, bell, scoops making sounds when run in the toothed grooves, see-through flower vases. These build logical thinking skills as children push, pull and investigate the numerous play items. The rich themes inspire

dramatic play, which is phenomenal for language development: the main factor for learning, friendships and life success.

Item no. MSV60400-0201	
General Product Information	
Dimensions LxWxH	4'9"x3'11"x4'0"
Age group	6m - 4
Play capacity (users)	8
Color options	

Greenhouse & Florist

MSV604

Funnel

Social-Emotional: trains cooperation and turn-taking as children put materials into the funnel. **Cognitive:** the passing of materials through funnels supports the children's logical thinking and for younger children the understanding of object permanence: that materials don't vanish but run through at the other end.

See-through tubes

Social-Emotional: the paired tubes invite parallel and cooperative play. **Cognitive:** construction play and the understanding of object permanence are supported when shifting items through the see-through tubes.

String with knobs

Social-Emotional: turn-taking and cooperation are supported when pulling the string from side to side with friends or caregiver. **Cognitive:** an understanding of object permanence when the knob disappears and reappears when pulled. **Creative:** leaving the knob in different positions can support symbolic and creative thinking.

Bubble Window

Social-Emotional: invites interaction between outside and inside. **Cognitive:** distorts the sound of the voice, developing logical thinking.

Bell

Cognitive: understanding cause and effect when ringing bell. **Creative:** leaving a mark by creating a sound rhythm when ringing or knocking the bell.

Pot

Cognitive: the pot can be removed, stimulating cause and effect understanding. Filling and emptying the pot stimulates logical thinking and the understanding of concepts such as empty and full. **Creative:** placing the pot in other areas of the play space in creative ways can support symbolic and creative thinking.

Sand scoops

Physical: hand eye coordination and push-pull movements. **Social-Emotional:** invites cooperation with two sides and provides for parallel play. **Cognitive:** logical thinking: cause and effect understanding when running scoops in grooves or shifting materials from scoop to scoop. **Creative:** shifting scoops, creating new scoop positions.

Greenhouse & Florist

MSV604

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material.

Sand pipe is made from rotomolded PE. PE has high impact resistance across a wide temperature span which ensures durability.

Pots are made of pressure molded high quality nylon (PA6). PA6 has good wearing and impact strength.

On the side of the wall there is a transparent bubble made from UV-stabilized PC.

See-through tubes are made of PPMA. PPMA has outstanding durability and resistance to UV radiation.

Item no. MSV60400-0201	
Installation Information	
Max. fall height	0'0"
Safety surfacing area	0ft²
Total installation time	5.1
Excavation volume	0yd³
Concrete volume	0yd³
Footing depth (standard)	0'0"
Shipment weight	106lbs
Anchoring options	Surface ✓
Warranty Information	
EcoCore HDPE	Lifetime
Membrane	2 Years
Movable parts	2 Years
PUR components	10 Years
Spare Parts Availability	10 Years

Sustainability Data

MSV604

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
MSV60400-0201	64.10	1.31	85.10

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Themed play systems

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Themed play systems" represented by item no.: MSC641100-3717P.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
