WOW! The Elephant is an iconic play-ground attraction that invites play and inspires stories. The Elephant is a fun space creator that toddlers return to again and again to investigate the playful manipulative items and create new stories: the banana, apples and pears go from the mouth to the stomach. The Mouse and Elephant story is thrilling to little

people. Storytelling and imagination are important for language development and thinking skills. The tactile variation, with rubber ear and smooth fabric tail adds to the tactile stimulation. The space under the Elephant's tummy and trunk is great for climbing through, training cross-coordination. The holes facilitate peek-a-boo games, too. Peek-a-boo develops

the infant's understanding of object permanence: that people and items still exist even if they are out of sight for a while.
