

# Jellyfish

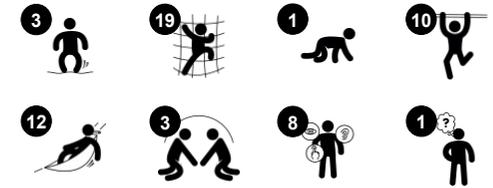

COR294002

Item no. COR294002-1102

## General Product Information

Dimensions LxWxH	23'6"x18'5"x14'7"
Age group	5 - 12
Play capacity (users)	18
Color options	

WOW! That's the reaction of children when they experience the Jellyfish: a transparent landmark with tentacles around its edges! The Jellyfish is guaranteed to deliver an unusually fun and challenging climbing experience. The transparent construction gives a good view both from the outside and from the inside. Muscle strength, balance and cross-

coordination are trained when children climb the greatly varied entries into the platform: swaying nets with or without climbing cleats, sturdy poles and rope ladders with bouncy rubber membranes. The spacious platform inside the Jellyfish is a desired meeting point for groups of children. The tilted floor makes it fun, as children need to adjust their muscle

tension to stay in balance. Social-emotional skills such as self regulation are trained in the Jellyfish.

# Jellyfish

COR294002

## Height

**Social-Emotional:** children develop courage and self-regulation when being up high. This positively impacts self-confidence.

## Membrane loops

**Physical:** develops leg, arm and core muscles as well as motor skills such as cross coordination and proprioception. **Social-Emotional:** showing consideration of others and helping others when passing one another going up or down.

## Climbing rope

**Physical:** the small knots add support for hands and feet when climbing onto the rope, crawling up or down. Climbing supports spatial awareness, cross coordination and muscle strength. **Social-Emotional:** passing others when climbing up or down develops turn-taking skills and consideration.

## Climbing net

**Physical:** the inclined net supports the upward climbing movement of the body. Cross-coordination, spatial awareness and physical strength are developed. **Social-Emotional:** the big meshes allow for more children to be together, sharing.

## Inclined platform

**Physical:** trains the sense of balance and space. **Social-Emotional:** the room allows for more children to be together, sharing. They can practice courage, self-confidence, consideration and turn-taking, all important life skills.

## Climbing pole

**Physical:** develops children's cross coordination, eye-hand coordination and muscle strength when climbing up or down. **Social-Emotional:** turn-taking and self-regulation are trained, both important life skills.

COR294002

Corocord ropes with 19mm diameter or more are special 'Hercules' - type with galvanized six-stranded steel wires. Each strand is tightly wrapped with PES yarn, which is melted onto each individual strand. The ropes are highly wear-and vandalism-resistant and can be replaced at site if needed.

Corocord 'S' clamps are used as universal connections in Corocord products. 8mm stainless steel rods with rounded edges are pressed around the ropes with a special hydraulic press, making them the ideal connector: safe, durable and vandalism-proof, all while allowing the typical movement of rope play structures.

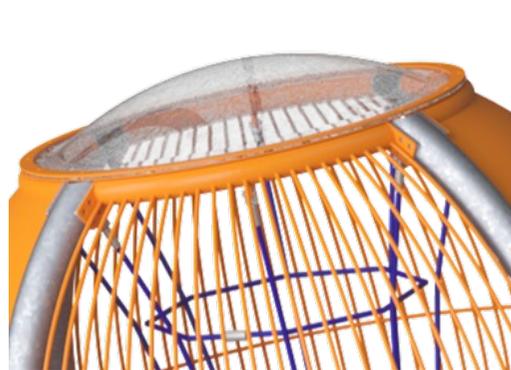

The steel structure are hot dip galvanized inside and outside with lead free zinc. The galvanization has excellent corrosion resistance in outside environments and requires low maintenance.

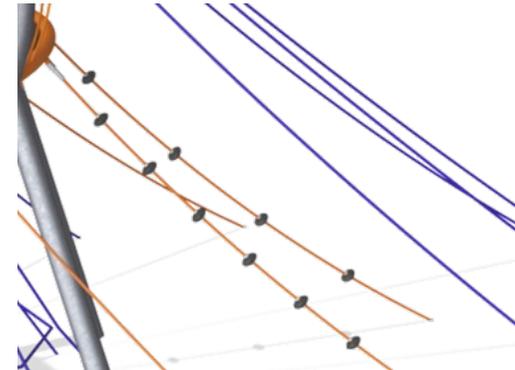

Item no. COR294002-1102	
Installation Information	
Max. fall height	8'0"
Safety surfacing area	750ft <sup>2</sup>
Total installation time	68.6
Excavation volume	18.09yd <sup>3</sup>
Concrete volume	10.59yd <sup>3</sup>
Footing depth (standard)	3'7"
Shipment weight	2600lbs
Anchoring options	Surface ✓ In-ground ✓
Warranty Information	
Aluminum clamps	10 Years
Corocord Rope	10 Years
Membrane	2 Years
S-Clamps	10 Years
Spare Parts Availability	10 Years

Corocord membranes consist of friction-proof rubberized material of conveyor belt quality with excellent UV resistance. Tested and compliant with REACH requirements for PAH. Embedded is a four-layered armoring made of woven polyester. The armoring and the two surface layers result in a total thickness of 7.5 mm.

A transparent PC bubble covers the top of the Jellyfish, allowing children to observe the sky.

Jellyfish ropes are equipped with small black EPDM ufos, which can be used as support for hands and feet when climbing the rope.

# Sustainability Data

COR294002

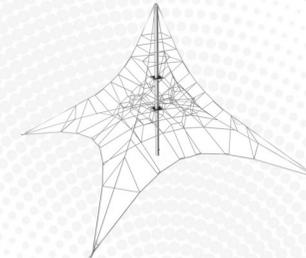

Cradle to Gate A1-A3	Total CO <sub>2</sub> emission	CO <sub>2</sub> e/kg	Recycled materials
	kg CO <sub>2</sub> e	kg CO <sub>2</sub> e/kg	%
<b>COR294002-1102</b>	2,543.90	2.84	45.30

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

## Verification of CO<sub>2</sub> calculation of: Corocord

Data version no. 2023-10-05

The CO<sub>2</sub> calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Corocord" represented by item no.: COR314011-1101.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
