

Triple Cube

COR10450

Children and parents will respond with a big WOW! When they see this playful Triple Cube structure. Its scale helps children to want to get into the variety of play it has to offer. The impressive cubes will stand out in a park atmosphere and signal 'Let's Play!!' The square frames with circular openings are fundamental play shapes that have fantastic play appeal.

The multilevel activities will increase play duration and make children come back again and again. Climbing between levels in the varied net climbers, the child trains cross-coordination, proprioception and spatial awareness. These train important life skills such as managing space, for instance in traffic, securely. They build self-efficacy, which

supports self-esteem and the ability to build social relationships. The side panels offer ground level play opportunities that stimulate cognition.

Item no. COR104501-0406	
General Product Information	
Dimensions LxWxH	22'10"x13'3"x22'11"
Age group	5 - 12
Play capacity (users)	30
Color options	

Triple Cube

COR10450

Bubble Window

Social-Emotional: invites interaction between outside and inside. **Cognitive:** distorts the sound of the voice, developing logical thinking.

See-through net walls

Social-Emotional: adds a feeling of thrill. **Cognitive:** understanding of space and distances when looking out from the varied levels of the cubes.

Membrane

Physical: the bouncy membrane develops the sense of balance when the child stands, steps or sits here. A faster way up, due to the extra support of the membrane. **Social-Emotional:** a meeting point for retreat from the rope landscape.

Wire frame tunnel

Physical: the steep climb in open space trains spatial awareness, cross coordination and muscle strength. **Social-Emotional:** sense of height and thrill, turn-taking and consideration of others.

Tube slide

Physical: sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down. **Social-Emotional:** thrill when going down fast. Empathy stimulated by turn-taking.

Wheels and arrow panel

Social-Emotional: invites cooperation with play on each side and provides for group and parallel play. **Cognitive:** the rotating elements stimulate cause and effect understanding and logical thinking.

Boarding net

Physical: the inclined net supports the upward climbing movement of the body. Cross coordination and physical strength are trained. The asymmetry of the net challenges the children's climbing.

Triple Cube

COR10450

Corocord ropes with 19mm diameter or more are special 'Hercules' - type with galvanized six-stranded steel wires. Each strand is tightly wrapped with PES yarn, which is melted onto each individual strand. The ropes are highly wear-and vandalism-resistant and can be replaced at site if needed.

Corocord 'S' clamps are used as universal connections in Corocord products. 8mm stainless steel rods with rounded edges are pressed around the ropes with a special hydraulic press, making them the ideal connector: safe, durable and vandalism-proof, all while allowing the typical movement of rope play structures.

The stainless steel components are made of high quality stainless steel in compliance with global playground standards. The steel is glass blasted after manufacturing to ensure a smooth gliding surface.

Item no. COR104501-0406	
Installation Information	
Max. fall height	5'3"
Safety surfacing area	583ft²
Total installation time	137.3
Excavation volume	12.99yd³
Concrete volume	5.56yd³
Footing depth (standard)	2'4"
Shipment weight	11575lbs
Anchoring options	In-ground ✓
Warranty Information	
Aluminum clamps	10 Years
Corocord Rope	10 Years
Membrane	2 Years
S-Clamps	10 Years
Spare Parts Availability	10 Years

Corocord membranes consist of friction-proof rubberized material of conveyor belt quality with excellent UV resistance. Tested and compliant with REACH requirements for PAH. Embedded is a four-layered armoring made of woven polyester. The armoring and the two surface layers result in a total thickness of 7.5 mm.

Panel of 19mm EcoCore™ HDPE. This highly durable, eco-friendly material is not only recyclable after use, but also consists of a core produced from 100% recycled material.

Through the KOMPAN Variant Team, you can choose between additional 7 rope colors and customize your solution. The assortment is a wide span of colors ranking from elegant and expressive black or a natural, neutral hemp color, to a range of attractive and eye-catching signal colors.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Corocord

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Corocord" represented by item no.: COR314011-1101.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
