

Parkour 2

NRO852

The Parkour 2 is a playground challenge that school age children can't pass without trying. The varied, responsive climbing ropes and nets are too much of a temptation. The Parkour 2 stimulates basic motor skills. Children use their cross-coordination, their proprioception and their muscles when they climb horizontally and vertically across the ropes and nets. Balancing

across the top beam with support rope adds to the thrill. The variation allows for different climbing styles and more children climbing together. This takes cooperation and communication, so children use and expand social-emotional skills such as turn-taking and negotiation. The Parkour 2 allows ample space for meeting, too. The higher destinations are

good for the sense of space. This helps children judge distances, for example, in street traffic or in crowded places.

Item no. NRO852-1001	
General Product Information	
Dimensions LxWxH	10'6"x10'5"x9'2"
Age group	5 - 12
Play capacity (users)	14
Color options

Top rope

Physical: the top rope adds support when balancing on the beam. This develops dexterity, hand and arm muscles.

Parkour ropes

Physical: the big rubbery discs are great support for the feet when climbing or crossing. This trains cross coordination, balance and arm and leg muscles. This combination adds to the child's body adeptness and awareness, adding security to movements. **Social-Emotional:** the seats make a nice destination and meeting point and take cooperation when crossing by others on the way through the module.

Climbing rope

Physical: the small knots add support for hands and feet when climbing onto the rope, crawling up or down. Climbing supports spatial awareness, cross coordination and muscle strength. **Social-Emotional:** passing others when climbing up or down develops turn-taking skills and consideration.

Climbing net

Physical: children develop cross-body coordination and muscle strength when climbing. The big meshes allow for climbing and crawling through, supporting proprioception and spatial awareness. **Social-Emotional:** the big meshes allow for more children to sit together and talk.

NRO852

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

Full colored EPDM rubber seats with smooth surface. The seats are molded on a hot dip galvanized steel inlay that ensures durable fixation to the rope.

Nets and ropes are made of UV-stabilized PA with inner steel cable reinforcement. The rope is induction treated in order to create a strong connection between steel and rope which leads to good wear resistance.

Item no. NRO852-1001	
Installation Information	
Max. fall height	8'9"
Safety surfacing area	364ft²
Total installation time	8.4
Excavation volume	3.07yd³
Concrete volume	0.3yd³
Footing depth (standard)	3'4"
Shipment weight	818lbs
Anchoring options	In-ground ✓
Warranty Information	
EPDM components	2 Years
Robinia Wood	10 Years
Ropes & nets	10 Years
Spare Parts Availability	10 Years
Stainless steel components	Lifetime

The Robinia wood can be supplied as untreated raw wood or painted with a brown colored transparent pigment that maintains the golden wood color of the wood.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025

Verified by:

Julie Marie Vejsgaard Larsen, LCA & EPD Consultant

Verification based on report: Validation of CO₂ calculation of 9 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Julie M. V. Larsen.
