The Daisy Desk with Bowl immediately attracts and welcomes infants and toddlers with its age-appropriate size and adorable floral theme. The desk provides an ergonomically correct place to work with loose parts or creative materials, together with friends or caregivers. The yellow bowl is a perfect container for materials. It can be lifted and emptied, a favorite activity for

young children. The Daisy Desk with Bowl encourages social play: the rounded edges of the desk each welcome a player. The round shape encourages eye contact, cooperation and conversation. The budding social skills in infants are stimulated when they can see all the other children thanks to the round shape of the Daisy Desk. The Daisy Desk with Bowl

offers toddlers an opportunity to break away from the wilder action in playgrounds to a calmer and more intellectual space.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
