

Toddler Garden House

M410

Wow! This toddler-sized allotment house is rich in activities that attract and hold young children in play, repeatedly. The varied play elements support the child's social-emotional, cognitive, and creative development. The many small or big openings and semi-open sides encourage play co-operation from the inside to the outside, increasing the number of children who

can participate in a way that makes sense. There is a number of manipulative play items that respond to the actions of the child: turning desk, spheres running in grooves and door lock. When items respond to the child's actions it stimulates an understanding of causal relations. It motivates talking and stimulates language development.

Theme

Cognitive: suggests a theme and supports dramatic play, which stimulates language and communication skills.

Desk

Social-Emotional: fine meeting place and a space creator. Sharing and cooperation from both sides create a social scenario that supports communication and cooperation.

Turn disk and sound creator

Social-Emotional: spurs group play and conversations with its dual-sidedness.
Cognitive: logical thinking, understanding numeracy. **Creative:** creating sounds when the spheres run through grooves.

Themed element

Cognitive: sets a tangible theme and so spurs dramatic play. Dramatic play is a great trainer of language skills.

Window

Social-Emotional: invites interaction between sides and cooperative play.

Megaphone

Social-Emotional: inspires communication and turn-taking skills. **Cognitive:** distortion of sound evokes curiosity and stimulates an understanding of cause and effect.
