

# Swing Seat, Stainless, 7 ft

SW990010

YES! The Swing is an all time playground favorite: children love swinging, individually and together. Swinging is pure thrill and joy, being swung up and down and using all the body to increase speed, or slow down. The seat is shaped with a slight curve in the middle, to facilitate the secure seat position for a wide age span. This creates a great place to play for

all ages, for hours and days. Swinging, apart from being great fun, trains the children's ABCs: agility, balance and coordination as well as their spatial awareness. These motor skills are crucial to being able to judge distances and navigate traffic safely. Swings allow for standing sitting, lying – and even jumping off. Apart from the motor skills training, this trains

the arm, leg and core muscles. Jumping off builds bone density – the majority of which is built up during the first years of life.

Item no. SW990010-00

General Product Information

Dimensions LxWxH	2'1"x0'8"x4'9"
Age group	2+
Play capacity (users)	1
Color options

SW990010

## Swing seat

**Physical:** balance, coordination and spatial awareness are developed when swinging.

These are necessary skills for judging distances and navigating. The swinging movement trains the arm, leg and core muscles, and strengthens bone density when jumping off. **Cognitive:** cause and effect understanding and thinking skills for younger children when swinging.

SW990010

The standard seats of KOMPAN swings is engineered for maximum safety and durability. The seat two component seat with a PP inner core and outside rubber is produced in one operation. The seats are available with swing chains of either hot dip galvanized steel or stainless steel for all swings heights.

Item no. SW990010-00	
Installation Information	
Max. fall height	0'0"
Safety surfacing area	172ft²
Total installation time	0.1
Excavation volume	0yd³
Concrete volume	0yd³
Footing depth (standard)	0'0"
Shipment weight	11lbs
Anchoring options	
Warranty Information	
Chains	10 Years
Spare Parts Availability	10 Years
Swing seat	10 Years

# Sustainability Data

SW990010

Cradle to Gate A1-A3	Total CO <sub>2</sub> emission	CO <sub>2</sub> e/kg	Recycled materials
	kg CO <sub>2</sub> e	kg CO <sub>2</sub> e/kg	%
SW990010-00	19.20	4.00	29.30

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

## Verification of CO<sub>2</sub> calculation of: Freestanding play equipment

Data version no. 2023-10-05

The CO<sub>2</sub> calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: KSW92011-0910.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
