This adorable ship with its slanted roof and familiar pirate flag will attract children again and again. With its welcoming triangular shape, the Playhouse with Roof & wall adds a shelter-feel to the classic ship and suggests a wealth of sailing scenarios: on deck or below. This invites continued dramatic play scenarios. The Play House with roof and wall welcomes

smaller and larger groups of children to play. The steering wheel and flag set the stage for sailor's narratives and may evolve into harbor or fishing village themes when children play. Dramatic play trains children's imagination and feeling of control. Additionally, children play out everyday scenarios to understand their world better. While doing so, they talk with their

peers. This hugely stimulates language skills as well as communication and negotiation skills.
