

Crazy Scrambler

M130

The Crazy Scrambler has motivated joyful play for generations: with it's timeless design, it attracts children again and again. The rocking sensation makes them stay and play. Apart from the joy in rocking, the responsive movement also trains the understanding of cause and effect in young children: that actions have an effect on the world. Rocking on the

Crazy Scrambler trains the child's sense of balance and space as well as hand and arm muscles when holding tight and pushing your feet hard into the foot support. All of these basic motor skills and muscle training actions help train the child's bodily cognition, supporting important life skills such as being able to sit still on a chair or navigate traffic

securely. The long seat of the Scrambler even allows two to ride together, stimulating cooperation and fostering the first friendships.
