

Little Hen's House

NRO417

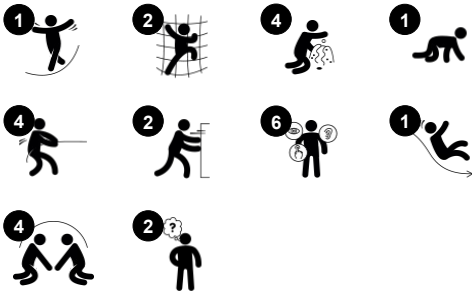

The Little Hen's House is an activity-packed ground level accessible play unit that offers a richness of home-themed play to attract and excite toddlers again and again. Rich tactile features greatly increase play value and support emerging dramatic play in the toddlers. The scale of the Little Hen's House is perfectly shaped for toddlers. The desk adds to the overall playability of the house from the inside as well as the outside. The two-sided play

panel with yellow scoops that run in grooves encourages play that stimulates theory of mind and logical thinking skills. The window with curtain invites social cooperation between inside and outside, supporting taking turns and cooperation skills. This also invites peek-a-boo games that support the understanding of object permanence: that things don't cease to exist when they are out of sight. Dramatic play supports language skills, and this unit

welcomes the first attempts of dramatic play with its many details and fun corners. Thrilling sliding is invited with a friendly loop between the access platform and slide mouth. The inclined climbing wall on the other side adds a different type of access and supports cross-coordination which is key to physical as well as cognitive development at this age.

Item no. NRO417-1021	
General Product Information	
Dimensions LxWxH	9'8"x13'7"x9'3"
Age group	2 - 5
Play capacity (users)	12
Color options	 

Little Hen's House

NRO417

Rock climber

Physical: supports cross coordination and leg, arm and hand strength. The handholds on top ease entry into platform. **Social-Emotional:** the incline makes climbing feel safer, especially for younger children.

Slide

Physical: sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down. **Social-Emotional:** empathy stimulated by turn-taking. **Cognitive:** young children develop their understanding of space, speed and distances when sliding down quickly.

Side desk

Social-Emotional: fine meeting place and a space creator. Sharing and cooperation from both sides create a social scenario that supports communication and cooperation.

Sand scoops panel

Physical: hand eye coordination and push-pull movements. **Social-Emotional:** invites cooperation with two sides and provides for parallel play. **Cognitive:** logical thinking: cause and effect understanding when running scoops in grooves or shifting materials from scoop to scoop. **Creative:** shifting scoops, creating new scoop positions.

Window with curtains

Physical: tactile stimulation supports sensory skills, when children explore characteristics of the materials. **Social-Emotional:** social interaction between inside and outside, supporting taking turns and cooperation skills. **Cognitive:** understanding object permanence when playing, e.g. peek-a-boo. Dramatic play support, encouraging language skills. **Creative:** leaving a mark, deciding how to place curtains.

Supportive handholds

Physical: handhold provides good grip for less confident climbers. Pulling yourself up and in trains upper body muscles. **Social-Emotional:** allows for a range of physical abilities to enter independently and securely, supporting play for all.

Little Hen's House

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

The product/activities are preassembled from the factory to ensure all safety requirements are considered.

The paint used for colored components is water based environmental friendly with excellent UV resistance. The paint is in compliance with EN 71 Part 3.

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material.

There are Multiple footing options for all products: Surface anchoring with steel footings and expansion bolts. Wood in-ground or steel in-ground footings.

Robinia products are available in three different wood treatment options: untreated Robinia wood or brown painted with a pigment that maintains the wood color and colored version with paint of selected components.

Item no. NRO417-1021	
Installation Information	
Max. fall height	1'11"
Safety surfacing area	427ft²
Total installation time	20.6
Excavation volume	2.13yd³
Concrete volume	0yd³
Footing depth (standard)	3'3"
Shipment weight	1835lbs
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
EcoCore HDPE	Lifetime
Hot dip galvanized steel	Lifetime
Robinia Wood	10 Years

Sustainability Data

NRO417

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
NRO417-1021	202.00	0.28	4.00

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
