MSC5426

The Chicken Farm & Horse Carriage encourages toddlers to move their bodies and explore. The thrill of crawling up and sliding down is fun and it also trains the toddlers' cross-coordination and balance skills, fundamental to moving confidently in the world. The multitude of moveable sand scoops, eggs and hens that can tilt and reveal eggs, make

for great cognitive-creative play. Toddlers' logical thinking skills and language skills are intensely motivated by these tactile, themed elements. The Carriage side with horse is a fantastic meeting point. It adds to dramatic play and play stories. Taking turns sitting on the horse trains important social-emotional skills, fundamental in friendship building. The QR-

code additionally opens to a world of play stories and educational games around the stories of Hans Christian Andersen. Children will love spending hours playing on The Chicken Farm & Horse Carriage.

## Theme

**Cognitive:** suggests a theme and supports dramatic play, which stimulates language and communication skills.

## Egg-laying hens

**Social-Emotional:** parallel play: two of the same activity. **Cognitive:** hand-eye coordination, cause and effect understanding and language skills are trained when tilting the hen to find the egg.

## Slide

**Physical:** develops spatial awareness, sense of balance and trains core muscles when sitting upright going down. **Social-Emotional:** empathy stimulated by turn-taking. **Cognitive:** young children develop their understanding of space, speed and distances when sliding down.

## Accessible stairway

**Physical:** climbing the accessible stairway is for all and supports cross coordination as well as arm and leg muscles. **Social-Emotional:** room for active breaks and adult helpers. An inclusive space.

## Play sphere

**Social-Emotional:** can be played from both sides, encouraging cooperation. **Cognitive:** cause and effect understanding. **Creative:** leave a mark and place the spheres at different positions.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
