

Chatter Bench with Backrest

PAR1151

Outdoor Furniture plays an essential role in our communities by adding an inviting and social atmosphere, a place to meet, socialise or rest. Chatter is classic park furniture designed for social interaction and relaxation. It perfectly blends into public areas like parks and playgrounds etc. Chatter Bench with Backrest is the seating possibility for multiple users. The

backrest gives good support when sitting and relaxing. The bench is available with armrests for increased comfort and to make it easier for users to get back up again.

Chatter Bench with Backrest

PAR1151

Bench is made of pine wood from sustainable European sources. The wood is pressure impregnated Class 3 with Tanalith E.

The steel's inside surfaces are hot-dip galvanised, and the outside with lead-free zinc. Galvanisation has excellent corrosion resistance within outdoor environments and is low maintenance.

Galvanisation is manufactured with a two-step process which includes light grinding and clean sweeping, which is then finished with a top powder coating to 70-120 µm thickness.

The benches and tables can be combined in multiple settings by choosing individual products or assembled into larger solutions. See catalogue pages for more inspiration.

The hardware is made of stainless steel or galvanised steel to ensure durable connections with a high corrosion resistance.

Item no. PAR1151-0611

Installation Information

Total installation time	0.7
Excavation volume	0.11 m ³
Concrete volume	0.05 m ³
Footing depth (standard)	60 cm
Shipment weight	42 kg
Anchoring options	In-ground ✓

Warranty Information

Galvanised Steel	Lifetime
Pinewood	10 years
Spare Parts Guarantee	10 years

Sustainability Data

PAR1151

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
PAR1151-0611	39.50	1.08	19.10

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Park

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Park" represented by item no.: PAR4070-0001.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
