

Splash Table

NRO506

Item no. NRO506-0601

General Product Information

Dimensions LxWxH	115x115x62 cm
Age group	2+
Play capacity (users)	8
Colour options	 

The Splash Table is a favorite play item that children are repeatedly attracted to. It makes a great gathering point for explorative play: sand play, water play and general sharing of found items. Sand and water play is a popular activity that can keep children playing for hours. The rubber plug can be pulled up to let water stream out of the table or let go to keep water

in the basin. This trains the child's understanding of cause and effect. For younger children, it stimulates their understanding of object permanence: that materials still exists even though they go out of sight. Children can be gathered on all sides of the table. This supports cooperation, negotiation and communication, all fundamental in the child's

social-emotional development.

Splash Table

NRO506

Splash table with plug

Social-Emotional: meeting point for cooperation and sharing. Develops turn-taking and cooperation. **Cognitive:** logical thinking and understanding of cause and effect are trained when children stop or let go of water from the basin. **Creative:** the water plug makes changing water levels possible, which adds to logical thinking skills.

NRO506

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

Robinia products are available in three different wood treatment options: Untreated Robinia wood or brown painted with a pigment that maintains the wood colour and coloured version with paint of selected components.

Item no. NRO506-0601	
Installation Information	
Max. fall height	0 cm
Safety surfacing area	15.2 m²
Total installation time	2.7
Excavation volume	0.17 m³
Concrete volume	0.00 m³
Footing depth (standard)	60 cm
Shipment weight	125 kg
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
Robinia wood	15 years
Spare parts guaranteed	10 years
Stainless steel components	Lifetime

Sustainability Data

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
NRO506-0601	80.10	0.81	8.70

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
