With its colorful seats and inviting shape, the Multispinner Carousel shouts an invitation to social spinning fun. The variety of play possibilities and positions allow for hours of play. The spaciousness of the carousel allows for many users, in, on, or around the piece. The users can spin and rotate, standing or seated. They can push and pull the multispinner into

motion. Children can work together to put the piece into motion when seated by coordinating their movements, like when swinging. The spinning trains the sense of balance. Pushing and pulling while running develops muscle strength and cardio. The play capacity encourages social interaction and taking turns. Figuring out how to put the carousel into

motion while seated together trains logical thinking and cooperation. All in all, the Multispinner Carousel provided heavy-duty play for many children, for a long time.

Multispinner Carousel, Blue, Red, Green

Differently colored bowls

Social-Emotional: encourages children to negotiate which color seat they want, turn-taking. **Cognitive:** supports understanding rules and rules games: children will find reasons for choosing one or the other color.

Spacious surface

Physical: standing or sitting here trains agility, balance and coordination, the motor skills ABCs. Jumping off builds bone density. **Social-Emotional:** using the surface promotes socializing and turn-taking skills.

Tilted position rotation

Physical: coordination and balance are supported when spinning. The leg, core and arms are trained when pushing, pulling or when coordinating the Multispinner into motion. When jumping on and off, bone density is strengthened. Bone density for life is mainly built up in the early years. **Social-Emotional:** cooperation, consideration and turn-taking. Wide span of user ages and abilities. **Cognitive:** logical thinking, figuring out how to make rotation when seated, speeding up or slowing down the spin.
