Amazing! The lovely Home,Garden & Auto play combination sets the stage for endless hours of dramatic play, social play and not least play explorations. The thrill in almost getting lost in the different corners is immense for toddlers. The richness of tactile detail supports explorative play and adds to the play duration. The spaces under the box bench, in the garden

and house space, offer graduated play. This makes it possible for all to find something to play, and it adds to play duration. The transparency of the unit allows children to play from the outside. It is encourages with many tactile activities that support cooperative play and social development. The manipulatives train cause-and-effect understanding, too, sti-

mulating logical thinking. The homely the-mes inspire stories and dramatic play, which supports language development.

Play sphere

Social-Emotional: can be played from both sides, encouraging cooperation. **Cognitive:** cause and effect understanding. **Creative:** leave a mark and place the spheres at different positions.

Desk with sieve

Social-Emotional: children can gather and store materials, cooperate and take a break together. **Creative:** sand can be shifted through the sieve, for understanding of cause and effect and object permanence.

Flap door

Physical: tactile stimulation from leaning the body through rubber doors. **Cognitive:** suggests a theme and supports dramatic play, which stimulates language and communication skills.

Crawl-through hole with curtains

Physical: the hole allows for climbing and crawling through, developing cross coordination, proprioception and spatial awareness. **Social-Emotional:** cooperation and turn-taking when playing with friends on the other side. **Cognitive:** understanding of object permanence: things can disappear without being gone forever – a thrilling insight.

Bench

Social-Emotional: gathering, cooperating or taking a break from play - all train social skills.

Broad table platform

Physical: cross coordination and spatial awareness when crawling over and under. This trains secure navigation of space. **Social-Emotional:** space for meeting, resting and socializing. **Cognitive:** dark green horizontal panel and the sand colored vertical panels support the understanding of space.

Den

Physical: crawling through the possible openings trains spatial awareness. **Social-Emotional:** the enclosed space invites social play for two or three children. **Cognitive:** the differently shaped holes (triangle, circle, square, square with curtains) invites naming and exploring shapes, supporting the understanding of shapes, space and measures.

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of material produced from +95% recycled post consumer material from food packing waste.

The steel surfaces are hot dip galvanised inside and outside with lead free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

Corocord membranes consist of friction-proof rubberized material of conveyor belt quality with excellent UV resistance. Tested and compliant with REACH requirements for PAH. Embedded is a four-layered armouring made of woven polyester. The armouring and the two surface layers result in a total thickness of 7.5 mm.
