

Hexagon Pull Up Station

FPW217

The hexagon pull up can be used in many ways and by multiple users at the same time. Exercises range from normal pull ups to the most dynamic and advanced exercises such as the Muscle Up. The Pull Up Bars are made from solid steel and have a diameter of 32 mm. An ideal size for kids, men and women to have a good grip. As the highest bar is connected at

a height of 233 cm everyone will be able to hang freely, to make sure that everyone can reach the pull up bars there are 2 stepping pods at different heights.

Item no. FPW21700-0900	
General Product Information	
Dimensions LxWxH	317x277x240 cm
Age group	8+
Play capacity (users)	6
Colour options	

Hexagon Pull Up Station

FPW217

Post are made of Ø101.6 x 2mm, pre-galvanized carbon steel and powder coated, a great protection to all conditions.

Steps are made of extruded aluminium with a non-skid surface. Aluminium has high corrosion resistance and ensures durability of the product. Steps have been mounted at heights of 34,7cm and 54,7cm this creates an easy access to reach the overhead activity

The connectors are made of die-cast aluminium, specially alloyed for the outdoor environments and heavy usage. The screws attaching the connectors are stainless steel and protected by zinc washers.

All bars intended for pull ups are made of solid, ø32mm x 138 m, hot dip galvanised, S235JR steel bars. This diameter gives the right grip for everyone.

Item no. FPW21700-0900

Installation Information

Max. fall height	233 cm
Safety surfacing area	36.8 m²
Total installation time	4.5
Excavation volume	1.06 m³
Concrete volume	0.56 m³
Footing depth (standard)	90 cm
Shipment weight	238 kg
Anchoring options	In-ground ✓ Surface ✓

Warranty Information

Connectors	10 years
Hot dip galvanised steel	Lifetime
Post	10 years
Spare parts guaranteed	10 years

Sustainability Data

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
FPW21700-0900	487.30	3.35	48.90

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
