

The Wizard's Hideaway, ADA

NRO409

The Wizard's hideaway is magical! With an elevated house and blue roof, it inspires role play. The natural Robinia timber provides an organic structure, that can either blend into or stand out from your surroundings. Children can touch and feel the timber while acting out their imaginations and social play, observing how nature inspiration interacts with the built

environment. A table on the side of the house can be used as a meeting point or provide a seat for caregivers, and the small stairs and slide are great for toddlers.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
